If this does not apply to you, please stop and ask your teacher for a different set of instructions.

One more thing, make sure your teacher has provided a section token in the area at the top of this page. If they have not, you will need to ask them for this.

Troubleshooting

If you forgot to enter an additional section token, you can click the "Join Another Class" link from the right-hand side of your course homepage after you log in. This will take you back to the screen shown in step #3 so you can enter more section tokens.

If you and your teacher need additional help with your enrollment (i.e., if you mistyped your section token, etc.), please send an email to our support team at support@edhesive.com. It will be most helpful if you can include:

- a screenshot of any errors you receive on your screen
- the email address you were attempting to sign up with
- the section token(s) you should be enrolled in
